

**Art Lesson Plans  
April 13th - 17th**

**Kindergarten and 1st Grade**

**Rabbit and/or Baby Chick Drawings**

1. Listen to the stories Mrs. Baiert recorded for you from Richard Scarry's Best Story Book Ever. (This was one of Mrs. Baiert's books when she was a little girl! It is kind of falling apart, but has been very loved!)
2. Use the attached link to create your own rabbit or chick.  
[There are 4 options for how to draw a rabbit and 2 options for how to draw a chick.]
3. Make your own rabbit or baby chick picture!
4. Take your picture with your project and send it to Mrs. Baiert through the WEEBLY webpage OR if it is easier to send it directly to Mrs. Baiert, you can email her directly at [Mandy.Baiert@imageschools.org](mailto:Mandy.Baiert@imageschools.org)
5. Can't wait to see what you create!

[Draw a Rabbit or Chick](#)

**OPTION 2: Found Object Art Names**

Gather small items from around the house to compose a picture of your name.  
The longer your name, the more space you will have to prepare for it.  
Use everyday objects that you love or have around your house.

**2nd Grade - 5th Grade**

**Art Prompts**

This week I have provided different art prompts.  
Your job is to choose **at least** one activity from the choice board below  
[or you can choose a different activity from one of the past weeks.]  
Feel free to do more if you would like.

Take a picture of you and your drawing and submit to my Weebly Art page OR you can send to Mrs. Baiert directly at [Mandy.Baiert@imageschools.org](mailto:Mandy.Baiert@imageschools.org)

**Lego Self-Portrait**

**Art Suggestion Board: Grades 2-5: Week of April 13 - 17**

Choose at least one of the following activities to complete. You can choose from this board or choose something different from one of the previous boards.

**CRAYON project**

**Homemade Scratch Drawings**

To begin you have to apply the crayon heavily, so it builds up a waxy layer. Next, take any sharp object that can be used to scratch with. I suggest the large sized paperclips (they're sturdier than the smaller ones). If you don't like something, color over it with black and try again.

**For my LEGOS masters:**

[Lesson Plan/Lego-Self-Portrait-Tutorial 4.13.20.pdf](#)  
Use this guide to draw your own LEGO person. You can create him or her off of one of your own favorites or even yours!

**MARKER project**

**Marker Painting**  
Some of you have done this with me in class...  
Draw a picture and outline your project with markers. Then dip a paintbrush into water. As you get the marker wet, it turns the marker strokes into "watercolor" paint!

**PENCIL projects**

Since I LOVED seeing all of your Statue of Liberty Step-by-step drawings, (and I can't do them with you right now...) here are a couple of different choices for you:

- [Draw-a-Zebra.pdf](#)
- [Draw-a-Baby-Chick.pdf](#)
- [Draw-a-Draw-Bunnies.pdf](#)

Draw a transform of sprinkles.

Draw a squirrel roasting a marshmallow.

Draw a rabbit dancing.

**Family Challenge of the Week:**

**Drawing Challenge Game 2**  
How many different things can you make using a square?

[Draw a Drawing Game 2.pdf](#)

Need more of a challenge?? Try this one using a trickier square...

[Draw a Drawing Game 2.pdf](#)

**OBJECTS at HOME:**

**Found Object Art Names**

Gather small items from around the house to compose a picture of your name. The longer your name, the more space you will have to prepare for it. Use everyday objects that you love or have around your house.
