

Technology Lesson Plans
April 13th - 17th

Kindergarten - 2nd Grade

3rd Grade - 5th Grade

Have some fun doing educational games to help with our academic skills this week on www.abcYa.com. I realize there have been issues using iPad with this website however, each week they put up 6 free games to use. **Choose at least 2 of these to practice skills and have some fun this week.** Respond back to me on the Weebly Website and tell me which activity you did and if you liked it or not
**I will need to hear from you to give you a participation grade each week.

Coding Practice 😊

This week I would like you to practice your coding skills. We have learned how to code in class, now we will use what we have learned to explore more coding tutorials.

- Go to <https://hourofcode.com/us/learn>
- Choose a new tutorial that we have not done in class
- When you are finished, you will e-mail me (Lynda.sullivan@imageschools.org) or submit it on the Weebly Website.
- Let me know which tutorial you chose and how many lines of code you wrote.
 - I will enjoy hearing from you 😊
 - Any questions, please be sure to let me know 😊
